PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Kaliningrad Training Area Akkerau is located 24 kilometers (km) southeast of Kaliningrad and 11 km east of the Kaliningrad/Yezau Airfield (Figure 1).

This training area covers approximately 2,000 acres and contains 13 buildings, 4 tank/assault-gun firing ranges, a probable vehicle-

mounted automatic weapons firing range, and a tactical training area (Figure 2).

A comparative analysis of photography from [] missions which covered this installation from [] reveals no major changes. Activity in the tactical training area increased during this period.

DESCRIPTION OF INSTALLATION

Road Service

The training area is served by secondary roads.

Administration and Troop Housing Area

Area D contains a T-shaped administration building, 2 possible barracks, 2 vehicle maintenance/storage buildings (each 220 by 60 feet), and 8 support buildings.

Tank/Assault-Gun Firing Ranges

Area N1 is a 4,000-foot range with two 2,500-foot firing lanes and a moving target.

Area N2 is a 3,500-foot range with two 2,500-foot firing lanes and a moving target.

Area N3 is a 4,000-foot range with two 1,800-foot firing lanes and a moving target.

Area N4 is a 4,700-foot range with four 2,500-foot firing lanes and a stationary target.

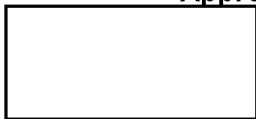

Area N5 is an 8,000-foot range with a firing lane. This range appears to contain a road with stationary targets situated along both sides. Vehicle-mounted automatic weapons are probably fired on this range.

Infantry or Combined-Arms Field Training Area

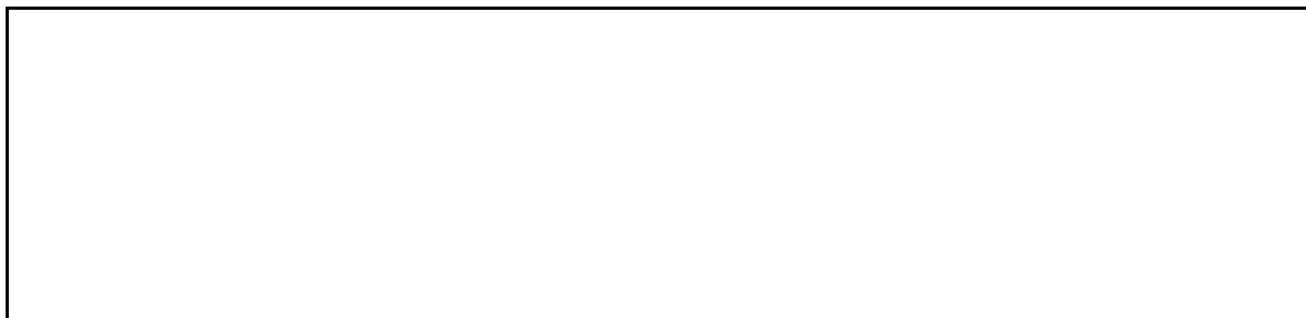

Area R contains several possible roads and facilities for firing vehicle-mounted automatic weapons. This area appears to be for tactical training.
